Additional Comments (please use back of sheet)

As I said, a course before some info. was
second-hand - nevertheless it is good to repeat
the points, as well. I would be really interested
in doing some data analysis

Please describe an aspect of the course that you found particularly useful

• Step by step walkthrough Ruseq analysis
• very informative and well-designed handout

Please describe an aspect of the course that you did not find useful

• interactive presentation about NGS-related dev. tools. Too long and too little information, which was "stuck". Short overview about main important ones w/ the script would probably be more useful
